NEW RULING.

Administrator Recovers Big

The third trial of the case of Wm. Herndon, administrator of M. W. Johnson, against the New York Life Instrance company, involving \$80,000, and interest amounting to \$17,000, resulted in a verdiet for the plaintiff in Judge Gordon's court at Louisville. The case, when tried first, resulted in a victory for the plaintiff who recovered the full amount. A reversal followed, and in the second trial a hung jury. Johnson was the agent of the defendant company at Paintsville. He took out insurance amounting to \$80,-

fendant company at Paintsville. He took out insurance amounting to \$50,000 and mailed his notes in payments. The policy was mailed, but the company refused to accept the notes and so notified Johnson. He claimed that in mailing the policy they had accepted the payment. While the matter was the subject of correspondence Johnson died and the company protested payment.

The Home Phone a Winner

The Home Phone a Winner.

In this issue is an announcement from Mr. Jack Meador, one of our popular business men who was against the Home Telephone Co., at the beginning of their work.

Mr. Meador, like a great many others, has fully realized the fact that this home enterprise has been the greatest blessing from a telephone standpoint, this county has ever had.

We have now, through the Home Company, the finest service in our State and can boast of the most modern Fire alarm telephone service in the world.

modern Fire alarm telephone service in the world. The Home Campany has also ntade it possible to talk all over the county for less than what we formerly paid for indifferent local service. Mr. Cooper, the President and principal stock-holder of the Home Company, and his associates in the enterprise, are deserving af the most hearty and cordial support. Every favor of the Cumberland Company has been forced by the Home Company and every time we talk to Pembroke or any other point in Christian County over the Cumberland lines, we should not forget that the Home Company has given us this privilege.

that the Home Company has given us this privilege.

The Home Company has done more for Hopkinsville and Christian Coun-ty in less than one year than the Cumberland ever did in twenty

Chas. M. Meacham,

ACTING JUDGE

Commission.

St. Louis, Dec. 2.—At a dinner H. Slaughter Jr., charged with the murder of G. F. Sander, was discharged by Acting Police Court Flair in the State building, Hon. R. Judge William at the examining trial. The court said no witness had denied Slaughter's statement that behad been struck first by Sander. He said the testimony of Slaughter, a reputable citizen, was of greater weight than that of four negroes, who testified that Slaughter had kicked Sander after the latter had bead her after the latter had fallen and said, in his judgement, he did not think a jury would find the defendant guilty. Slaughter two years ago married Miss Evin Sydnor Miller, editor of the "Tattler" column in the Evening Times.

CASE DISMISSED.

Neither Boatner Nor His Attorneys Appeared.

Duluth, Minn., Nov. 28.—The settlers in Aeltrami county have banded together to prevent the colonization of southern negroes there, and the seheme of Booker Washington may be frustrated. There are about 150 prosperous farmers, mostly Scandinavians, who are joining in the movement, and a protest will be made. If this fails, sterner measures are spoken of. The country is uvery rich and the section is an ideal, place for a colony. The soil is extremely fertile and wheat raised there commands a higher price than that from any other section of the state.

Dividend No. 4.

A semi-annual dividend of four per cent. has been declared by thoard of directors of the Aeme Mills & Elevator Co. on the commons tock, out of the net earnings for six months ending Nov. 30th, 1904, and the same is payable at the office of the company.

NEW FRUITS.

the Winters of Kentucky.

Secretary Wilson and his chief of the Bureau of Plant Industry began in 1897 to try to produce a hardy it orange by crossing the Florida orange on the hardy but worthless some of the more important features little Japanese orange, a native of coning into bearing and while hundred of the secretary will stand any land of coming into bearing and while hundreds of them are sour and worthless, and the secretary will be supported by the secretary will be secretary will be supported by the secretary will be secretary wil

we have a tart fruit with a beautiful flavor that is every bit as good as grape-fruit, and will be quite popular for table use. Third, we have a fruit as sour as a lemon and full of juice of equally good flavor, which will make a good substitute for the lemon which is now imported from Siedly. And finally, we have a sweet, juicy orange with as good a flavor as that produced on the banks of the Indian River, and it can be grown anywhere south of the thirty-fifth parallel. We propose to distribute the trees as fast as we can grow them, but it takes several years for of them, but it takes several years such fruit to mature, and the public

such fruit to mature, and the public must have patience."

The plant-breeders of the Agricultural Department have produced still another new fruit for breakfast use, which is sure to be popular and will be distributed in the same way. It is the result of the marriage of the pomelo of Japan and the tangerine of Algiers. The fragrance of the Mediterranean and the hardy vitality of the Northern Paefife Ocean have met and the result is foot of the tangerine and the size of the pomelo and can be grown in any kind of soil and in any ellmate where the temperature does not go below zero.

The department is introducing the mange tree from India and the Philippines and is trying to breed that up to endure the climate of this country. It is a delicious fruit, both for table use and for preserving, but it is now too delicate to survive our frosty winters. It is hoped, howev-er, that it can be crossed with some hardier plant that can endure our climate.

MRS. HEN'S WORK.

Large Crowds Continue to December Meeting at Hotel An Orange That Will Endure Egg Crop for a Month Would Pay Interest on Debt

rainfall areas; establishment of pures food standards; the extrension of again ciultural education in primary and secondary schools.

The corn crop of 1904 yields a farm value greater than ever befores: The farmeris could from the proceed of this single crop pay the national debt, the interest thereon for one year, and still have enough left to pay a considerable portion of the government's yearly expenses. The cotton crop, valued for lint fand seed at \$600,000,000, comes second, while hay and what contend for the third place. Notwithstanding the wheat crop shows a lower production than any year since 1900, the farm value is the highest since 1881.

Horses and mules reached the highest point this year, with an aggregate value exceeding \$1,345,000,000. On the other hand, cattle, sheep and hops all show a slight decline.

cline. The steady advance in poultry leads to some astonishing figures. The farmers' hens now produce between one and two billions of dozens of eggs and at the high average price of the year the hens during their busy season lay enough eggs in a single month to pay the year's interest on the national debt.

KENTUCKY EXHIBIT

Saved as Nucleus of a Permanent Museum.

The Kentucky Exposition Comp sion decided to turn over all of the available staple Kentucky exhibits at the world's Fair to the Kentucky Geological Survey at Lexington, to be held there until the new capitol is completed, when they will be installed there as the nucleus of a permanent exhibit.
